Open Science manager for HORIZON projects

APRE is seeking a highly motivated and experienced professional to join the Projects Department team in Rome as the Open Science manager. The successful candidate will be responsible for leading the implementation activities required for the success of the European projects.

Key responsibilities include:

- Develop and implement comprehensive strategies for open science practices, including sharing and management of research outputs and engagement of citizens, civil society and end users
- Coordinate and manage the research outputs including the research data (data management plan)
- Involve all relevant knowledge actors including citizens, civil society and end users in the co-creation of R&I agendas and contents (such as citizen science)
- Organization of knowledge sharing and mutual learning workshops, Stakeholder identification, engagement and community building
- Build and maintain relationships with project partners and stakeholders

Qualifications:

- Proven experience in European projects (Horizon2020, Horizon Europe especially)
- Proven experience in elaboration of good practices and policy briefs and recommendations
- Knowledge about open science practices, RRI and valorisation measures
- Experience in the development of data management plan
- Ability to coordinate with european partners
- Strong interpersonal and networking skills
- Willingness to travel within Europe
- The ideal candidate will have a minimum of 2 years of experience in a similar role, with a bachelor's or master's degree in economics, or a related field.

Language: Excellent written and verbal communication skills in English (B2 minimum).

Work location: Rome

Deadline:

- deadline for the submission of the curriculum: 30/11/2023
- apply here https://apre.it/lavora-con-noi/ using the interactive form at the bottom of the page
